Oh well!

We tried.

Appreciate your suggestions, but the language was approved so we won't be changing it.

Good Morning, Melissa.

I just took a look at our webpage for sediment sampling results.
<http://www2.epa.gov/goldkingmine/gold-king-mine-data-august-14-2015>. I spoke with Deb McKean this morning about some confusing language on that page. She and I agree that the sentence - "However, comparison to risk-based screening values found these exceedances to below risk screening levels." should be deleted. It basically repeats the information that comes before it, but, by the way it is worded, confuses the issue.

Could you get with the current Webmaster and have them make the correction?

Hope all is going well there.

Thanks!

Cynthia
